

**Step 1** – Download and install the SecureVOIP Basic app

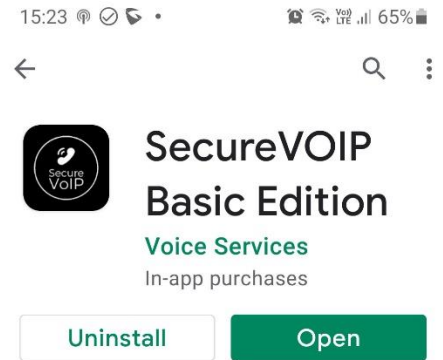

ALLOW ALL PERMISSIONS WHEN PROMPTED

<https://play.google.com/store/apps/details?id=nz.securevoip.basic>

<https://apps.apple.com/us/app/securevoip-basic-edition/id1529360545>

**Step 2** – Enter your username and password when prompted

**Step 3 - IMPORTANT** – To ensure that you can receive calls the SecureVOIP app needs to be active. This is usually not a problem if the app is used regularly but please check from time to time that the icon is visible on the top of the screen. To activate the app just open it.
